

**DEAR NEIGHBORS AND SUPPORTERS OF  
ZÜLPICHER STR. 290**

Pastor Armin Beuscher and the squatters' research team "Longterm Perspective" are inviting you to a meeting at the occupied house:

---

**FRIDAY, 4TH OF MARCH AT 17H  
ZÜLPICHER STR. 290**

**We would like to discuss with you the  
prospective usage of the two squatted houses.**

---

The squatters will represent the current state of discussion regarding their usage perspective of the houses. We are also quite interested about your point of view with regards to the renovation plans of the city and its long-term intention to rent the place.

*How can we establish a neighborhood center in one of the shops in the ground floor. This center could become a meeting point for the refugees that found housing in the building and could also become a meeting point for the neighborhood concerning advise and self-organisation around the topic "housing for all"?*

*What are your (even contrary) ideas about the meaning and usage of such a neighborhood center?*

**We are looking forward to hear about  
your contribution to the discussion.  
With kind regards, Zülpicher 290.**
